Before 18*By JulissaDantesI think this is a book for us citizens under the age of 18, because some stuff in here is just too basic, maybe I'm good with money and others will find this book like an eye opening experience, but for me it was a waste of time3 of 3 people found the following review helpful. Not worth the priceBy Kostantin StambolovJust a bunch of common articles that even don't go deep into the matter. Google can provide much better expert advice.0 of 0 people found the following review helpful. Great book if you live in the USBy Stefan WanHonestly, it's a great book with much knowledge that I've never heard before. but

unfortunately the content tend to explain financial things in the US, such as Roth IRA, 401(k). I live in Indonesia, so I need more time to understand whole content and sometimes ask my friend in the US.

Nearly 70% of Americans will have made a major financial mistake that harms their credit—all before the age of 30. Sixty-three percent of Americans don't have enough savings to cover a \$500 emergency, and 54% of millennials say they're worried about their ability to repay their student loans. Without a proper financial education, many are headed for trouble. Failure can be the best teacher, but why learn the hard way? When provided with the resources to make the right decisions with their money, many young adults quickly learn how to walk the steps toward financial security. This eBook is a financial "cheat sheet"—a collection of the 100 most important money tips, written by Forbes' top personal finance writers, who have learned invaluable lessons from their own financial blunders. You'll read about everything from banking, student loans, IRAs and 401(k)s to mutual funds and buying a home. If you feel you aren't saving enough for retirement or just want to make sure you're on the right track, read this eBook and take steps toward improving your financial IQ.
