When I saw that this book was associated with Hayhouse I thought it would be a quality read, and I like this type of book. However, the book is a big disappointment. The suggestions border on silly and are ineffective at best. There are so many great books out there that deal with this subject in a much more effective and better written way. Try Jen Sincero's "You are a Badass".1 of 1 people found the following review helpful. This book HAS HELPED!! :-)By SilverFeathyrI am glad I purchased this eBook since it has helped me to change the way I think

about my finances and WHY I believe what I do. This may be considered a "positive thinking" book, since it doesn't necessarily tell you anything about investments and so on, but it will help you to clear away the obstacles that are preventing you from attracting prosperity into your life. It has helped me so much already!! 1 of 1 people found the following review helpful. Five Stars By darrell king very good book to help on achieve their desires
