A Must Read For Business Owners and Consultants By Dennis Sommer As a sales and business consultant, author and speaker I am always on the look out for new ideas that help a business improve sales performance. This book, "49 Marketing Secrets (That Work) To Grow Sales", provides more successful real life examples in its 300 pages than you can find in 10 other books. This book provides insights from 34 different contributing authors who are experts in many different industries. I have not found another resource that provides the depth of experience delivered here. I am also impressed by the breadth of sales growth topics covered, including: Strategic Planning, Branding and Corporate Image, Media Strategies, Networking Strategies, Technology Based Marketing Strategies, Event Strategies, and Sales. This is a must read for business owners, consultants, sales and marketing professionals who want new ideas and strategies to grow their business.

Finklestein noticed that many small business owners don't understand marketing; therefore they don't know whom to trust with their money. This book is intended to provide valuable marketing information and sound advice using practical and proven techniques for success.

""The heavy hitters, the shining stars, the bright lights - all here in this brilliant and enlightening book...Mandatory reading for anyone who loves marketing and profits.""
