10 of 10 people found the following review helpful. Great BookBy ComelyI have so many books on finances telling

me everything I need to know about money. This book gave me so much more. I haven't read the entire book, just subjects that gave feedback on a particular situation. So far it's a very good book.4 of 4 people found the following review helpful. For beginnersBy Kindle CustomerNot much here that I hadn't seen before . For someone who hasn't even started thinking about retirement, this is a good overview of everything that you need to consider. But, if you're looking for something in depth or more specific to your needs, this really isn't the right book.0 of 0 people found the following review helpful. Well written and very useful.By John WiseWell organized, thoughtful, and personable. There are lots of useful checklist. I found myself highlighting text and bookmarking every few pages. This is the book you'll want to refer to when it's time to make plans and get things done. There's more than just facts though; the author keeps it personal and from the heart, and that keeps it interesting.
