First-rate Business ResourceBy Stuart BowlesProfessor Shim's book is an excellent resource for the operations and/or project manager who needs a review of managerial accounting and finance topics. Each chapter is concisely written and contains several examples to illustrate each point. I particularly like that this books delves into significant detail to be of real value, i.e. some other books of this type only skim the surface of each topic.

Have you recently been promoted? Are you starting a new business? Do you suddenly find that you need to know more about finances than you ever expected, but have no time for formal training? If so, you need Accounting and Finance for the Non-Financial Executive. Whether you are a newly promoted middle manager or executive, a marketing manager of a small company, an entrepreneur, or own your own business, your results will be measured in dollars and cents. You need to know the basics of finance and accounting to make sound business decisions and become successful. Shim shows you the strategies for evaluating investment decisions such as return on investment analysis. You will see what you need to know, what to ask, which tools are important, what to look for, what to do, and how to do it. Easy to read and useful, the book presents many practical examples, illustrations, guidelines, measures, rules of thumb, graphs, diagrams, and tables that make comprehending the subject easy. Accounting and Finance for the Non-Financial Executive prepares you for additional managerial responsibilities. You will be better equipped to prepare, appraise, evaluate, and approve plans to accomplish departmental objectives. You will be able to back up your recommendations with carefully prepared financial support. Whether they are based on marketing, production, or personnel, by learning how to think in terms of finance and accounting you can intelligently express your ideas.
