It turns the idea of customer service inside out and gives it a good airing. Lots of fresh insights into pleasing the customer and keeping the customer -- and into training your staff to be super savvy when it comes to keeping the customer coming back again and again. And great stories! Howard Hyden has worked with a lot of businesses and his examples are vivid, surprising -- and at times hilarious! Bring Howard to your next pro-D event or buy some of his books for your staff. HH is way ahead of the pack!

"Outside-In" is a way of thinking. It's not customer service! It's looking at every facet of your business and asking: How does this add value for the customer, from the customer's point of view? Knowing what your customers really want because of the WAY you ask them. Learning how to keep more of your current customers, close more proposals and gain new ones is just the tip of the iceberg when looking at your business from the "Outside-In!" This book will change, forever, how you look at your business."
