Brian Finch : Critical Financial Issues: Financial Times Briefing: The low down on the top job (Financial Times Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Critical Financial Issues: Financial Times Briefing: The low down on the top job (Financial Times Series):

0 of 0 people found the following review helpful. Mandatory but engaging readingBy CustomerThis should be board-mandated, required reading for those normally too busy to read business books.The author has an engaging style, combining well-selected real world examples with mordant wit and solid analysis. The takeaways may sometimes seem obvious. However, the evidence is there that the same mistakes are repeated time after time. Executives and

decision-makers should tune up periodically with a book like this both on the things they think they already know as well as this author's novel way of framing financial risk and the methods to manage it.

A concise and pithy reference guide that gives senior managers and executives powerful, practical and accessible guidance on everything they need to know about running a profitable, cash generating business unit offering real shareholder value. For non-financial executives in a key functional or general management position it's important to understand the critical financial issues that affect their business unit. This book will give you an understanding of these financial issues so you can understand the impact they will have on your operational decisions, as well as be able to recognise when they are taking risks and how to evaluate those risks. Structured in the series format of the Financial Times Briefing series, concise, pithy and to the point, these books offer:

- Powerful, practical advice to help executives make essential business decisions.
- A concise and focused overview to give executives the crucial information they need.
- Special design to help busy business leaders get the knowledge they need, fast.

From the Back Cover Fast Answers to Critical Business Decisions
