Dipak Kumar Bhattacharyya : Cross-Cultural Management: Text and Cases before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cross-Cultural Management: Text and Cases:

The whole new gamut of multinational companies (so-called MNCs) and transnational companies (TNCs) have brought-in a new drift in organizational behaviour pattern. This book meticulously digs into how the employees working in diverse cultural set-up behave, and what the organizations are doing to help them 'feel-at-home'. The case-studies and examples compiled from almost all corners of the globe, discuss various cross-cultural management practices adopted by the organizations, and their effectiveness. Though this book is intended for the students of management, it would be equally beneficial for the practising managers handling the cross-cultural teams.
