Anastasios Gourgourinis : Equity and Equitable Principles in the World Trade Organization: Addressing Conflicts and Overlaps between the WTO and Other Regimes (Routledge Research in International Economic Law) before purchasing it in order to gage whether or not it would be worth my time, and all praised Equity and Equitable Principles in the World Trade Organization: Addressing Conflicts and Overlaps between the WTO and

Other Regimes (Routledge Research in International Economic Law):

This book analyses whether, and how, equity and equitable principles can be employed as juridical tools in the legal reasoning of judges and lawyers in World Trade Organization (WTO) disputes where there is interaction between norms derived from the multilateral trade regime and other international legal regimes. Bringing the literature on equity and equitable principles in international law up to date this book tackles several legal problems which have emerged in WTO dispute settlement practice as well as engaging with the concept of the fragmentation of international law. The book provides an original argument about the role and significance of equity and equitable principles in the debate over fragmentation by providing a coherent methodology for addressing conflicts and overlaps between WTO and non-WTO norms in the context of Dispute Settlement Body proceedings.

About the Author Anastasios Gourgourinis was elected Lecturer in Public International Law, specializing in International Economic Law, at the National and Kapodistrian University of Athens Faculty of Law in July 2011, and is an advocate with the Athens Bar in Greece. He currently serves as a Special Legal Advisor for Strategic Investments at the Hellenic Ministry of Development, Competitiveness, Infrastructure, Transport and Networks, and is a Research Fellow at the Academy of Athens.
