come realize the profound value of teaching ethical thinking using everyday decisions. What better way to learn how we think, how we rationalize, and how we unintentionally make decisions that violate our own ethical code. I purchased copies for my three children (ages 14 to 19). I wish I had read this years ago. However, it is never too late to learn and improve. 0 of 0 people found the following review helpful. Exceptional book for Students and non-students of all ages. By xebeck I recommend this book to everyone, looking to forge an exceptional character, and add another great habit to your repertoire. 0 of 0 people found the following review helpful. Great Book! By Laura Freeman Thought the Book was wonderful! Used the book and applied to ethics in workplace as an interpreter for the deaf. Shared with colleagues, who are also enjoying the book.

We often make small ethical compromises for "good" reasons: We lie to a customer because our boss asked us to. We exaggerate our accomplishments on our resume; to get an interview. Temptation blindsides us. And we make snap decisions we regret. Minor ethical lapses can seem harmless, but they instill in us a hard-to-break habit of distorted thinking. Rationalizations drown out our inner voice, and we make up the rules as we go. We lose control of our decisions, fall victim to the temptations and pressures of our situations, taint our characters, and sour business and personal relationships. In *Ethics for the Real World*, Ronald Howard and Clinton Korver explain how to master the art of ethical decision making by: Identifying potential compromises in your own life Applying distinctions to clarify your ethical thinking Committing in advance to ethical principles Generating creative alternatives to resolve dilemmas Packed with real-life examples, this book gives you practical advice to respond skillfully to life's inevitable ethical challenges. Not only can you make right decisions, you can acquire new habits that will realize the best in yourself and transform your relationships.
