W. D. Gann : Face Facts America!: Looking Ahead to 1950 before purchasing it in order to gage whether or not it would be worth my time, and all praised Face Facts America!: Looking Ahead to 1950:

WILLIAM DELBERT GANN (1878-1955), or W. D. Gann, was a finance trader who developed the technical analysis tools known as Gann angles, Square of 9, Hexagon, Circle of 360 (these are Master charts). Gann market forecasting methods are based on geometry, astronomy and astrology, and ancient mathematics. In this book written just after the outbreak of the Second World War, the author traces the patterns that he believed would underlie the future to 1950.

Prescient and deeply thought-out a fascinating read
