Harvard Business Review : Managing Up (HBR 20-Minute Manager Series) (20 Minute Manager) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Managing Up (HBR 20-Minute Manager Series) (20 Minute Manager):

8 of 8 people found the following review helpful. Avoids all hard issues in managing up By BW Full of common sense platitudes tips like "Tip: Make your manager look good by achieving or exceeding goals". Is that the sort of profound insight I'd expect from a Harvard publication, or is that just common sense? It doesn't even touch on hard issues that we could use guidance on: how to tell your manager that you expect more compensation for exceeding goals. Suppose your boss is an ass doesn't negotiate towards a "mutually beneficial outcome"? How do you handle a boss that is

dishonest or a yes-man to his/her superiors? I've never been so underwhelmed by a book before. 3 of 3 people found the following review helpful. Practical Steps for an Often-Ignored Area of your Career By Uncle GI read this book and applied it with the VP I was reporting to and it helped me gain more trust and autonomy. It helped me tune in to his communication style, decision making, the specific meaning of certain phrases he used, when to ask questions, when to make suggestions, when to push for changes, etc. Now I use it this when working with leaders across the organization. 0 of 0 people found the following review helpful. Quick and practical By gakaka Quick read practical applicable tips . Managing up does not have to be a cringe affair. It's absolutely ensuring alignment and preferences styles . Good quick read high recommendable. Give it a go . Harvard business review .
