Not too impressed with this book But it did arrive promptly and in good shape,0 of 0 people found the following review helpful. Nothing SpecialBy personal\_reviewerThis is an interesting book but nothing particularly earth shattering. If

you can find a used copy or borrow one from a friend it will be worth your investment, else I would look for another title. 1 of 2 people found the following review helpful. Few career advices, some other advices By Lior Bar-On I bought this book hoping for some career strategy advice. The book is fluent and easy to read. There are some advices by experienced managers. Each idea is emphasized by a story or experience which helps to better understand and remember the lesson. The ideas are not revolutionary or systematically built into a strategy but seem to be wise and useful. This book would probably not change your life or create great impact but would remind and focus you on some good lessons. Its a book worth reading if you are thinking about developing your career.

Wondering how the most accomplished leaders from around the globe have tackled their toughest challenges? Now you can find out with *Lessons Learned*.
