Richard Siple : Market Indicators: The Best-Kept Secret to More Effective Trading and Investing (Bloomberg Financial) before purchasing it in order to gage whether or not it would be worth my time, and all praised Market Indicators: The Best-Kept Secret to More Effective Trading and Investing (Bloomberg Financial):

5 of 5 people found the following review helpful. Excellent Coverage of Key IndicatorsBy RonI like this book very much because it is well-organized and covers all the important indicators that the pros look at. The author has divided the book into 3 important sections: (1) The first section deals with volatility, big money, fast money etc. and discusses how all these actions affects price in the market, (2) the second deals with market sentiments, and finally (3) smart vs.

dumb money and why it's important to follow the smart money. I find this book to be extremely informative yet very readable. For me, the layout of the 3 sections helps serve as a base map for me to process the available information out there in a very organized way. It helps one to think "horizontally" across the investment market landscape and it helps me put other investment knowledge that I've picked up elsewhere in the proper location. Highly recommend. 0 of 0 people found the following review helpful. Five Stars By P. Kline Expertly written, copiously illustrated. 0 of 0 people found the following review helpful. Four Stars By jose loyola informative

A smart trader needs to know what other traders are thinking and doing. Professional traders and investors use a wide range of indicators—some well-known, some not so well-known—to gauge the state of the market. *Market Indicators* introduces the many key indicators used by professional traders and investors every day. Having stood the test of time, these indicators will alert the trader to market situations that offer the best chance to trade profitably. Richard Siple is a portfolio manager for Boston Private Bank and Trust Company, responsible for trading millions of dollars of assets. Siple uses these indicators every day in his trading and investing, and he draws on that experience to explain what they are, how they work, and how to use them.

About the Author Richard Siple, CFA is a senior portfolio manager at Boston Private Bank Trust Company where he manages investment portfolios for both individuals and institutions. Siple has more than 14 years of experience as a senior portfolio manager. He holds an MBA with concentrations in finance and economics from the Kellogg School of Business at Northwestern University. He earned his Certified Financial Analyst (CFA) charter in 1998. He lives in Andover, Massachusetts
