of Investing, Trading and Risk:

Seize the advantage in every trade using your greatest asset—“psychological capital”! When it comes to investing, we're usually taught to “conquer” our emotions. Denise Shull sees it in reverse: We need to use our emotions. Combining her expertise in neuroscience with her extensive trading experience, Shull seeks to help you improve your decision making by navigating the shifting relationships among reason, analysis, emotion, and intuition. This is your “psychological capital”—and it's the key to making decisions calmly and rationally during the heat of trading. *Market Mind Games* explains the basics of neuroscience in language you understand, which is the first tool you need to manage the emotional ups and downs of the trading. It then provides you with a rock-solid trading system designed to take full advantage of your emotional assets.
