Grafton Christopher : Mastering Hurst Cycle Analysis: A modern treatment of Hurst's original system of financial market analysis before purchasing it in order to gage whether or not it would be worth my time, and all praised Mastering Hurst Cycle Analysis: A modern treatment of Hurst's original system of financial market analysis:

0 of 0 people found the following review helpful. Five StarsBy richard s. cloydAn amazing treatise on the subject ! Highly recommended !0 of 1 people found the following review helpful. but good.By Slugger3A little too detailed, but

good.0 of 1 people found the following review helpful. Five StarsBy Customergreat

One of the best classical methods of technical analysis brought up to dateThis book offers a modern treatment of Hurst's original system of market cycle analysis. It will teach you how to get to the point where you can isolate cycles in any freely-traded financial instrument and make an assessment of their likely future course.Although Hurst's methodology can seem outwardly complex, the logic underpinning it is straightforward. With practice the skill needed to conduct a full cycle analysis quickly and effectively will become second nature. The rewards for becoming adept are high conviction trades, tight risk management and mastery of a largely non-correlated system of analysis.In this extensive step-by-step guide you will find a full description of the principal tools and techniques taught by Hurst as well as over 120 colour charts, together with tables and diagrams. The Update and TradeStation code for all of the indicators shown is also included.

About the AuthorChristopher Grafton is currently Director, Principal Analyst and Systems Developer at Vectisma Ltd., an independent market analysis firm focusing on Japanese equities with a global macro overlay, based in England. Previously, he has held positions on the sell side at several investment banks in London and Tokyo and also worked as an analyst and trader for a London-based hedge fund specialising in Japanese equities. Christopher speaks fluent Japanese, is a member of the Market Technicians Association, is a successful systems designer, programmer and trader, and holds the Chartered Market Technician designation.
