number of published books, I have read many books on writing, getting published, marketing and promotion along the way, and as far as I am concerned this latest book of Patricia Fry's is without a doubt the BEST of the BEST. It is the most complete book on writing proposals, query and cover letters, how to find an agent, publisher, promoting, marketing, self-publishing vs. traditional publishing, etc., etc., etc. I have ever read. The information is specific, very valuable, and the book is loaded with helpful resources. Ms. Fry left absolutely nothing out (including that you should not go overboard on tape when sending a manuscript by snail mail - something I am probably guilty of!) Whether you are just starting out hoping to publish your book, or have already been published, I HIGHLY recommend "Publish Your Book." If there were a Hall of Fame for authors who write books that cover "everything you need to know about getting that book published and life after publishing, for sure Patricia Fry would be in it. I suggest that you read her other books on writing as well. Her friendly, personable style makes you feel like she is talking directly to you. Thanks for a terrific book, Patricia.
