Highly recommended - a great description of a life journey, experiences and action to live by. By Technophobe01 Over the years I have read many books, I have three that I recommend to my friend's children that they read before they embark on a career. I now have a fourth - John Addison's book Real Leadership. OK, why? My feeling is John has captured the essence of his personal experiences in this book and defined a great set of simple guidelines and practices that you can try and live your life by. This is not a book of grandeur and ego, it is a book of experiences, lessons and deep friendships. It is a book you can come back too, you can use it to frame a situation and provide insight. I was talking to a friend's son recently and found myself referring to Chapter 7 - "Decision" and framing their problem in the context of the chapter and then recommending they read the book. How can you not then recommend the book to others? Thus, highly recommended - a great description of a life journey, experiences and action to live by. nb. For those who want to know the other books, I recommend they are (In no particular order) Real Leadership - John Addison How to Win Friends and Influence People Paperback ndash; Dale Carnegie Meditations - Marcus Aurelius Getting More: How You Can Negotiate to Succeed in Work and Life - Stuart Diamond4 of 4 people found the following review helpful.
