Carol M Connell : Reforming the World Monetary System: Fritz Machlup and the Bellagio Group (Financial History) before purchasing it in order to gage whether or not it would be worth my time, and all praised Reforming the World Monetary System: Fritz Machlup and the Bellagio Group (Financial History):

Focusing on Fritz Machlup, Connell presents the story of the Bellagio Group and its contribution to modern finance. Initiated by Machlup the Bellagio Group was made up of thirty-two non-government academic economists. During the years between 1964 and 1977 the Group met eighteen times and made a series of recommendations for policymakers.

'an exceptionally clear and persuasive book that will be of interest to analysts of contemporary debates about the international monetary system as well as to financial historians.' The Journal of Economic History 'The author writes with exemplary clarity in a superb analytical framework.' Herbert Grubel, EH.net 'Connell has given us a fascinating, comprehensive and original account of the contributions of three giants of our field. Her meticulous and engaging reconstruction of the debates that surrounded the formation of modern international monetary arrangements will be indispensable not only to economic historians but to anyone who recognizes the importance of intellectual history to understanding the complexities of today's global financial relations.' Gary Mongiovi, St John's University
About the Author
