## GPS: How to Navigate Your Way to A Secure Financial Future with Global Investing:

0 of 0 people found the following review helpful. A Book For Every Non Professional Investor-retirement in mind By Michael Elstein I was very surprised by this outstanding book, which makes a highly complicated subject very easy to read for the layman. It is not only for retirement, but for any age when you have a sum of money to invest and no formal education on how to proceed. The author writes in a refreshingly lucid style, and he manages to explain a wide range of investing concepts in an interesting and non complex manner. Mr Katsman's book is not only an introduction for the beginner, but also provides many valuable insights to those who have experience in looking after their investments themselves. His philosophy is contrarian, rejecting the conventional wisdom of many financial advisers who are out of touch with the changing world of today, and provides an invigorating new approach on how to preserve capital and solve the money problems of retirement. A must read for anyone wishing to make his savings grow. 0 of 0 people found the following review helpful. THE location search for the best GPS for retirement investment is over!!! By Roy Saslow With all the 'help guides' and 'how to's' for retirement investment available, you almost need a GPS to find the best 'GPS' for retirement investment. Your search is over! Katsman has succeeded in presenting a clear, EXTREMELY readable, and reliable guide to investment strategies not only for the 'baby-boomers' generation but for everyone. Surprisingly, the book is a 'good read' in addition to being an excellent investment reference guide. Recommended reading for ANYONE regardless of age, income or financial status. 0 of 0 people found the following review helpful. Easy, Breezy Read By S. Collins Katsman supplies readers with some uplifting motivation in order to get us all moving forward to secure our own financial future. The guide is full of enthusiasm and the author cheer-leads readers into working on setting financial goals and preparing for their future. This isn't a heavy, in-depth look into financial issues but the author certainly supplies readers with a pretty good push to get busy setting personal goals and then doing something to make those goals become reality.

The secret to ensuring financial peace of mind in retirement? INTERNATIONAL INVESTING Building a solid retirement portfolio while ignoring the global economy is simply not a reality anymore. While still strong, the U.S. economy is no longer the only big player on the scene. China, India, Turkey, and Brazil are just a few of the many powerful upstarts in global markets. The world has changed for good--and your portfolio must change with it. Financial advisor Aaron Katsman steers you in the right direction by providing you with a Global Portfolio Strategy (GPS) tailored specifically for today's diverse world economy. In Retirement GPS, Katsman calls for a more balanced portfolio in light of today's realities--one that places heavy emphasis on foreign investments. This no-nonsense guide teaches you: Why international investing is critical to your retirement portfolio Where the best places to begin investing are--from Scandinavia to the Middle East How to invest in foreign stocks and bonds Set your course for a happy, safe financial future. The tool you need is right at your fingertips--Retirement GPS.
