Susanne Finke : SAP Foreign Currency Revaluation: FAS 52 and GAAP Requirements before purchasing it in order to gauge whether or not it would be worth my time, and all praised SAP Foreign Currency Revaluation: FAS 52 and GAAP Requirements:

0 of 0 people found the following review helpful. Not a good reference book. By CJM The first chapter attempts to give an overview of FAS 52 but it is not entirely correct. The remainder of the book is difficult to follow as it is not laid out in a logical, organized manner. I would not recommend this book. 0 of 0 people found the following review helpful.

SAP FX Revaluation By Thomas Brady I'm not finished with the book, but it is an okay reference manual. It does tend to repeat quite a bit, but that is unavoidable regarding the subject matter. I hope the book will explain how to clear some items that are posted in SAP erroneously, so if the book does not do that then reduce my score by a half-star. 5 of 7 people found the following review helpful. Not a good source of information on FAS 52 By C. Miller The following statement from the editorial review is completely misleading. "With essential information on the proper rules and regulations needed to comply with FAS 52, SAP Foreign Currency Revaluation: FAS 52 and GAAP Requirements is a valuable reference for controllers, CFOs, IT and accounting managers, and SAP consultants who are involved in FAS 52 compliance projects, regardless of whether their companies are using SAP, Oracle, PeopleSoft, or proprietary software." There is nothing in this book of value to a CFO, IT or Accounting manager. Only 4 pages in the entire book discussing the implications of FAS 52.

"SAP Foreign Currency Revaluation-regulations, its impact, and what it takes to implement it in SAP-is a single handbook that simplifies a complex and daunting task of currency valuation for SAP and other ERP implementers. A must-read!" -Kalpesh Khandhadia, SAP Consultant, Linksoft-IT Inc. "Following the process presented in this book, we eliminated the hours we spent each month manually reviewing and adjusting our global currency financial statements. Thank you Susanne Finke, for making this complicated topic understandable!" -Ron Roberts, Process Lead, Financial Systems, Hollister Inc. "It's great to see all the foreign currency information captured in one place and spelled out so clearly. Great job!" -Nadean L. Moore, SAP FI Consultant, Moore Consulting "This SAP Foreign Currency Revaluation book . . . covers the necessary SAP tables and transactions for revaluation and provides excellent examples of the SAP entries. A well-written book." -Dave Paz, SAP Consultant, DLP Consulting LLC With essential information on the proper rules and regulations needed to comply with FAS 52, SAP Foreign Currency Revaluation: FAS 52 and GAAP Requirements is a valuable reference for controllers, CFOs, IT and accounting managers, and SAP consultants who are involved in FAS 52 compliance projects, regardless of whether their companies are using SAP, Oracle, PeopleSoft, or proprietary software. Its detailed coverage of statutory requirements, business execution of currency revaluation in SAP, and SAP configuration walks readers through: * The U.S. accounting statutory requirements, net income, organizational, and financial consolidation impacts * An overview of currency revaluation with discussion of stock transfer and tax implications * FAS 52 requirements for currency exchange rates and translation * Corporate standards for G/L indicators that are impacted by currency revaluation * Three methods available to execute currency revaluation and their differences * One of the newer ways the SAP R/3 software provides users to execute currency revaluation * The SAP configuration to implement currency revaluation * Setting up custom variants to view the critical fields used in the currency revaluation
