**Jim Beach, Chris Hanks, David Beasley : School for Startups: The Breakthrough Course for Guaranteeing Small Business Success in 90 Days or Less** before purchasing it in order to gage whether or not it would be worth my time, and all praised School for Startups: The Breakthrough Course for Guaranteeing Small Business Success in 90 Days or Less:

0 of 0 people found the following review helpful. It is a usefulBy Manwere WatanangaAn inspiring and a must read

for small business managers. It contains practical info gleaned from real life businesses. I have been inspired and encouraged to continue in business even in hard economic times. I have also gained insight into delving into innovation. The book has a lot to offer even on international marketing. I will start looking beyond my country borders for more opportunities because I have had a lesson or two about how it works in practice. I will keep reviewing the book with my staff. It is a useful resource

0 of 0 people found the following review helpful. Must Have! By Richard Ammon this book has tons of very practical, down-to-earth advice on starting a small business. Any entrepreneur would benefit from reading this book, whether you are thinking of starting a business or already have one! 12 of 14 people found the following review helpful. Stories about other successful businesses, good but not enough specifics By M. T. B. Verbose. Must sift through oodles of stories about other successful businesses to gain nuggets of useful information. Reads more like a novel, which I don't wish to use my time doing. Just purchased a second start-up business book that looks more hopeful since this one doesn't seem to outline enough specifics, more generalities like "just do it" advise on different types of businesses. Don't get me wrong, this book does have some useful info that I am glad to have. Just not enough of what I need: start-up business advise how-to's.

Start your own successful business—without all that risk! You would love to own and run your own business. Be your own boss. Reap all the fruits of your labor. But “risk” is not your middle name, is it? That’s good news for you. School for Startups all but removes risk from the equation. This short, practical how-to for starting a business the smart way explains exactly how to lower the risks of entrepreneurship so you can begin turning a profit immediately—without massive debt or overhead. With hundreds of the best ideas for new businesses and case studies proving the effectiveness of the author’s approach, School for Startups proves that low-risk entrepreneurship is not just a theory; it can be done—and this book shows how.

About the Author Jim Beach is a serial entrepreneur, Radio Host at School for Startups Radio, International Speaker, and founder of International Entrepreneurship ([internationalentrepreneurship.com](http://internationalentrepreneurship.com)). Chris Hanks is an entrepreneur and lecturer at the University of Georgia, where he is Head of the Entrepreneurship Program at the Terry College of Business. David Beasley worked for twenty-five years as a reporter and editor for the Atlanta Journal Constitution. His stories have appeared in many publications, including the New York Times, Bloomberg News, and GlobalAtlanta.com. His new book "Without mercy: The Stunning True Story of Race, Crime and Corruption in the Deep South" comes out in January 2014.
