Hoyt Barber : Secrets of Swiss Banking: An Owner's Manual to Quietly Building a Fortune before purchasing it in order to gauge whether or not it would be worth my time, and all praised Secrets of Swiss Banking: An Owner's Manual to Quietly Building a Fortune:

3 of 3 people found the following review helpful. The straight skinny. By Don Tabler In my 72 years I have purchased only one book twice in the same week, so I can share it and have a copy to keep. This is that book. The great insight shown in the front substantiation, is intense and spot on accurate, foretelling the events that actually transpired in the

half decade after its publication.while much of the problems that could be avoided by using the book have been eliminated or moderated, there is still a method in the book that works even today with enough intelligence. how long the book will remain available is problematic today when the our government is engaged in selling assault rifles to drug cartels and confiscating telephone records of the associated press . I am so old i can remember when america was a free speech zone, get your money out of the country , send your children abroad to find a place where they can start over. Our dysfunctional congress is routinely lied to by the executive branch, political discourse is being pushed out by federal thugs, the dept of homeland security ignores thirty percent of the illegal immigrants who are from somalia, pakistan, afghanistan, meanwhile they parade in great strength, to back up local law enforcement in armored vehicles., we have everything today but crowds screaming ..."sig heil" They say a frog can be placed in a pot and slowly heated to the point the water kills him, and if you don't feel uncomfotably warm today,you are part of the soup of the day..5 of 5 people found the following review helpful. good book with a caveatBy Surprise!This book should certainly tell you all you need to know about Swiss banking and investments - now if he had only kept his endless political biases to himself I would have added a star. It would also be wise to check online for intermediaries who can help. CAUTION: Some charge a fee, but not all. Choose the latter!8 of 22 people found the following review helpful. Political RantingBy John McIntyreThe author uses this book to go off on rants about the Iraq War and Gorge W. Bush, topics that have nothing to do with Swiss Banking.

In *Secrets of Swiss Banking*, offshore financial specialist Hoyt Barber shows how to protect your hard-earned assets by safely and legally moving your money into trusted Swiss financial institutions. Along with timely banking advice and solid investment insights, Barber provides authoritative information on a variety of Swiss banking-related issues;from the basics of opening an account to the nuances of numerous Swiss banking and investment strategies. He also details Swiss banking policies and regulations along with U.S. tax and reporting requirements.

From the Inside FlapSwitzerland and the subject of Swiss banking have evolved over the past few decades, but the legendary ability of Swiss banks to attract incredible sums of money from all over the globe has only increased over time, strengthening this little country's position in the world. Why? Because Switzerland has remained independent in the face of global geo-politics, including pressures from the European Union to join them and pressures from the United States to abolish their Banking Secrecy Act. Switzerland intends to remain free from such insanity and to hold its own in the face of outside demands. This book, then, is not only about Switzerland and Swiss banking, but it is also about a bigger picture of where Switzerland stands today within the current context of world events;and how this unique country can avail itself to you for your benefit. Written by a renowned specialist in tax havens and offshore banking, *Secrets of Swiss Banking* reveals a way for you to safely and legally hide your money and protect your assets, all the while quietly building your retire-ment funds and personal fortune without the need for complicated financial planning. Hoyt Barber provides up-to-the-minute, authorita-tive information for both those who are new to the subject and those who are more expe-rienced and seek an update of the most current information, approaches, and ideas. Allreaders will advance their understanding to a new level and be in a better position to take advantage of current opportunities and future prospects as well as avoid potential problems. Barber skillfully explains the different types of Swiss bank accounts, how to select a bank, and how to invest in stocks, bonds, and other financial instruments through your Swiss bank. He details Swiss banking policies and regulations along with U.S. tax and reporting requirements. And he even outlines the best alternatives to Switzerland. For anyone interested in protecting their assets and safely securing their financial future,*Secrets of Swiss Banking* provides the advice they need to succeed.From the Back CoverEverything You Need to Know to Enjoy the Benefits ofSwiss Banking Take action to secure your financial freedom and future now! Offshore financial specialist Hoyt Barber shows how to protect your hard-earned assets by safely and legally moving your money into trusted Swiss financial institutions. Along with timely banking advice and solid investment insights, Barber provides authoritative information on a variety of Swiss banking-related issues;from the basics of opening an account to the nuances of numerous Swiss banking and investment strategies. He includes guidance on foreign currency accounts, trust account deposits, securities trading, investment funds, futures and commodities trading, precious metal investments, margin accounts, custody service, a personal Swiss safe deposit box, and a myriad of Swiss investment alternatives that provide iron-clad asset protection;in addition to a few valuable but little-known Swiss banking strategies. His solid hands-on advice and investment ideas show how to quietly build your personal fortune and plan financially for retirement;out of the reach of the government, creditors, nasty bosses, vindictivespouses, or worse;through the Swiss banking system.About the AuthorHoyt Barber is a renowned specialist in tax havens and offshore banking and has served as a financial consultant to clients worldwide.
