Own Book:

If you have always dreamed of being a writer, you can live your dreams by writing your own book and then self-publishing. Self-publishing is the way that many writers today are choosing to get their book out to the public. Self-publishing today is not the same as it was years ago when you had to spend thousands of dollars to publish your book. You can self-publish a book for as little as \$500 when you choose a good self-publishing service online. The first thing that you need to do is to know your genre. The one rule of writing is that you should write about what you know. If you have a specific genre that you read, chances are that this is what you will want to write about. Take a look at your interests and the type of books that you read before you decide on your genre. Your book should never be just about making money - it should be about something for which you have a passion.
