Robert F. Schoeni, Robert T. Reville, Craig W. Martin : Trends in Earnings Loss from Disabling Workplace Injuries in California: The Role of Economic Conditions before purchasing it in order to gauge whether or not it would be worth my time, and all praised Trends in Earnings Loss from Disabling Workplace Injuries in California: The Role of Economic Conditions:

Documents the decline in earnings losses experienced by workers injured at work, comparing several counties, industries, and both large and small firms.

About the Author Craig Martin is Assistant Professor of Religious Studies, St. Thomas Aquinas College, USA. Excerpt. copy; Reprinted by permission. All rights reserved. Can the downward trend in earnings losses experienced by injured workers during the 1990s be traced to the state's improved economic conditions?
