5 of 5 people found the following review helpful. Good ideas can be found in the bookBy Anne E. AndersonI found the book contained a great many ideas. Not all of them were useful for the service I was marketing, but enough of them were to make the price of the book acceptable. Some ideas (such as carrying your business cards with you and leaving them with everyone you come into contact with-even when paying bills at restaurants) seemed simple but were

very effective in practice. I am new to marketing and I found that from the simple to the more complex means of putting your service out there this book is useful and allows the user to accelerate his or her marketing. 0 of 0 people found the following review helpful. Lots of cute tips, some solid ideas. By Dr. Why? For the beginner, the hundreds of tips can be overwhelming. For the experienced marketer the book is full of "memory joggers" I should try doing that tips. My biggest complain is the over emphasis on promotion and advertising. there are only two references to "pricing" and on the surface they are contradictory.. 0 of 0 people found the following review helpful. Very good marketing book with a lot of very practical ideas ... By Piotr Wons Very good marketing book with a lot of very practical ideas for small business owners. Must have for every with tight marketing budget and head full of ideas:)
