**Information Age Publishing : When Leadership Goes Wrong** before purchasing it in order to gage whether or not it would be worth my time, and all praised When Leadership Goes Wrong:

0 of 0 people found the following review helpful. It is one of the best books recommended for new supervisorsBy Lynda MalcolmMy daughter needed this so she could complete supervisor training. It is one of the best books recommended for new supervisors.0 of 0 people found the following review helpful. This book contains some important insight for every leader. ...By M B BThis book contains some important insight for every leader. Not only do we need to know the things that work, but also what to stop doing.0 of 0 people found the following review helpful. educatoionisthewayBy EducationIsTheWayProbably a great book for a scholar, very deep and heavy into research.

But not as helpful as for a layman looking for easy-to-read analysis, and specific solutions for a dysfunctional leader/entity/community.

The leadership landscape has begun to shift. Researchers have started to realize that previous conceptualizations of leadership that focus only on the positive aspects of leadership are too narrow and may represent a romantic notion of leadership. A growing body of inquiry has emerged with a focus on the darker side of leadership. Allowing for the possibility that leaders can also do harm, either intentionally or unintentionally, broadens the scope of leadership studies and serves to increase the practical implications of leadership research. This book brings together contributions by scholars from several different countries addressing topics such as narcissistic and destructive leadership, ethical leadership and leader errors.
