By Master of the Universe
Successful business development is an essential element of every thriving business. If you are not developing your business- your business is going to erode. This book is a masterpiece that details in a methodical and detailed manner the "how to" build your pipeline with qualified leads and manage those qualified leads to successful conclusion. It is so logical and matter of fact that it is brilliant. If you follow this methodology you will be successful in building your practice and increasing the revenues and profitability of your book of business- it is that simple! Additionally, the approach is actually transferable to business development in other product or service industries. McGraw Hill has published a winner with this business tool. Thank you Michael Salmon and Thank you McGraw Hill.

Few financial professionals leverage the many referrals they receive on a daily basis, thus, missing out on one of their best opportunities for increasing profits and growth. *Winning More Business in Financial Services* is a step-by-step guide to thriving in an increasingly competitive business climate by optimizing existing relationships to meet people readers can't reach on their own and staging, framing, and following through on these referrals.
