Excellent content, much better than the cover suggestsBy Kyle CordesFrom the cover and title, I expected a rather low-end book, targeted at neophytes only. But I bought the book anyway (based on a strong recommendation from a peer) and was very pleased! Aside from the first few chapters (with many details about the history of search advertising), many chapters of this book are very helpful in getting up to speed on core, competent use of AdWords and similar tools.0 of 0 people found the following review helpful. Google AdwordsBy Colin FlahertyIf you own a small -- or large -- business, you really have to come to terms with Google Adwords, and all of the advertising and marketing tools it puts in your hands. This book is a great place to get started, alone with materials on Google itself.0 of 0 people found the following review helpful. InsightfulBy Thrill-SeekerThe genius of Google AdWords come through in this insightful book. The complexity of the Google system is clearly explained and daunting in its permutations.
