It doesn't matter whether you're fed up with working outside the home or you're just ready to make some extra money, the opportunities available for work-at-home mothers can prove incredible. If you're holding back out of fear that your skills aren't honed enough to turn dreams into reality, relax! Even women who lack degrees or high-priced "career skills" will find there are plenty of options for launching lucrative home-based businesses. It's also possible to land actual on-staff jobs working for others out of a home office. Telecommuting is becoming more common than you might realize. You might even be able to sign on as a

contract worker or freelancer with companies all over the world.
