All of Tamara Monosoff's books will speak directly to you!By CreativeCommunicationKateAs I sit here with three of Tamara Monosoff's books, which I have read cover to cover, I think that the most outstanding part of what she has provided me is moral support. Although I do not know her personally, I feel as though I do. In all of her books, she has captured exactly what I would feel as I go through each phase of the process. From, 'Your husband may not get it at first' to, 'Six excuses for not making a business plan' she seem to know exactly what I am experiencing.From her latest book, *Your Million Dollar Dream*, I think the part that spoke to me the most was "Focus on Providing Value" starting on page 96. That is exactly what motivates me. Although it may be a long time before I make a single dime, in the mean time, I can freely provide something of value that is in line with the mission of my product and my company. If I truly believe that my product will solve a problem, then I can think about that problem in many creative ways and also offer tips or free services that also address that same issue. That is exactly what I had started to do, but it was wonderful to get confirmation, reassurance and further motivation from her book. Helping people is what motivates me, and her book validated that as a positive step toward building my dream. In such a corporate world that focuses on only the bottom line, I love that I can have a mom business that does much more! What I love most about being a mom with a business dream is that I can make it more than just a bottom line...although I suppose I should have one of those too! Thank you Tamara!2 of 2 people found the following review helpful. *Tamara Will Help You Build The Business of Your Dreams*By Jennifer FleeceI wish I had had this book when I started my business seven years ago - how much time, money, and sanity it would have saved me! Tamara Monosoff's books consistently provide dozens of valuable tips and words of encouragement to keep even the most hesitant focused and energized. While any budding entrepreneur will find her books enormously helpful, Monosoff's "been there and lived through it" conversational style of writing will be especially helpful to mothers. As a mom inventor, entrepreneur, and author herself, she can relate to the particular challenges that launching a product or business with small children in tow can entail. This is not to say that her books are for moms only, helpful tips on marketing and promotion, to funding your business are applicable for anyone.Monosoff lets you know that the crazy idea that has been floating around in your head maybe isn't so crazy and unattainable after all... maybe it is the next million dollar idea that a little fortitude and some very good advice is all that is needed to roll up your sleeves and jump in. In addition to her books, her website: [...] is also chalked full of handy, personal advice. I can't recommend her books and her subsequent wisdom enough. If you are contemplating starting a business or bring a product to market, consider Monosoff your sage and her books your personal "how-to" manual.1 of 1 people found the following review helpful. *Way beyond my expectations*By The Little NorwegianThe book *Your Million Dollar Dream* is awesome, filled with inspiration and great ideas. It is easy for me to translate the title into MY Million Dollar Dream. My copy arrived from a few days ago and I tore right into it. It more than meets my expectations. I was pleased to read that I am doing quite a few things right with my business and excited about the ideas in the book that will help my business grow. Happy is a rainy day like today when I can read more from the book, sit in my favorite chair with a highlighter pen and take ownership of my dream! I am a senior citizen entrepreneur but the nice thing about the book, it addresses all ages, and pros and cons. Thanks Tamara!Reply

Create your "someday" life TODAY! "Get ready to let your dreams take flight! Tamara taught me things I wish I'd known years ago; it would have saved me a lot of time and money." Jamie Novak, founder of www.BiteSizeLiving.com and author of *Stop Throwing Money Away* and *The Get Organized Answer Book* "A heart-pounding read for entrepreneurs who want answers to all those nagging questions. Read it and fly." Nell Merlino, creator of the *Take Our Daughters to Work Day* and *Make Mine a Million \$ Business* programs and author of *Stepping Out of Line* Link your dream to practical business possibilities Identify your skills and motivations Create an effective business plan Use Twitter and Facebook as powerful business tools Find the funding to support your business
